Sliding Fee Scale

If an individual or family needs a sliding scale (reasons to be discussed with a mental health professional), Compassion Clinic: Therapy Services offers a sliding fee scale for the following session types. It is based on a family’s gross income. There is no guarantee that a reduced fee will be accepted. A reduced fee is at the sole discretion of the Compassion Clinic: Therapy Services and its standards. If you opt to utilize insurance, this option is not available to you and the amount owed will be completely determined by the insurance company.
